## **VISION**

Realizing a participatory, democratic and gender-just civil society order in the process of development and the sustainable management of natural resources

## **MISSION**

- Developing and strengthening civil society and community organizations in the sustainable management of natural resources,
- Developing information and communication grounded in community needs,
- Studying and developing participatory and democratic methodologies and approaches,
- Developing cooperation and strategic alliances with other parties relevant to the vision,
- Providing services and facilitation in developing participation and democratization of development and natural resource management,
- Advocating for social and gender justice,
- Developing learning spaces as a medium to create and disseminate creative and innovative products,
- Establishing Mitra Samya as a professional, independent and dignified institution with a modern management system.

## **CORE VALUES**

Democratic, participatory, transparent, equal, siding with marginalized groups, and mutual learning.

Perkumpulan Mitra Samya (Lembaga Studi Partisipasi, Ekonomi dan Demokrasi – the Institute for Participation, Economic and Democracy Studies) is a non-profit organization focusing on participatory research in the social, economic and democratization fields; human resource capacity building; development of methodologies for development and natural resource management (PSDA); and development of development communication and information media.

Perkumpulan Mitra Samya was founded in 2001 by a group of researchers, academics and community empowerment practitioners from various backgrounds in Indonesia, to address the challenge of how the results of participatory research that had been conducted could benefit the community, and how the programs implemented by various parties could pay more attention to the poor, women and other marginalized groups, in order to realize a just and sustainable social order. This spirit inspired the vision, mission and core values it upholds. Indeed, the name Mitra Samya represents an equal position alongside the community. Samya in Sanskrit means “the people”, so that from the outset Mitra Samya was intended to be a friend and companion of the people.

In pursuit of its vision, Mitra Samya has carried out many activities and programs in various regions of Indonesia. Studies, Program Evaluations, Capacity Building and other programs it implements always put forward the principle of networking and strengthening local resources from Indonesia, ready to be mobilized whenever Mitra Samya carries out a program in those areas.

At the national level, Mitra Samya networks with various organizations and takes part in shaping and pushing for policy changes that favor the people.

For example, the CLAPP-GSI (Community Learning and Action Participatory Process-Gender and Social Inclusion) and VAM (Village Appreciative Mapping) methods, developed with the support of ACCESS–AusAID for participatory village development planning, budgeting and implementation, attractively demonstrate the potential and strength of village communities in managing development in their villages. These methods have been widely adopted by NGOs and governments in various regencies across Indonesia. In addition, with the support of JPAL-SEA, Mitra Samya has also developed various participatory methods to support the studies carried out, for example the Poverty Ranking Method; the Poverty Alleviation Program Dissemination Method; and the Information Provision Method for Indonesian Migrant Workers.

Mitra Samya also actively updates and applies various other participatory development methodologies such as MPA (Methodology for Participatory Assessment) and PHAST (Participatory Hygiene and Sanitation Transformation); PRA (Participatory Rural Appraisal); AI (Appreciative Inquiry); ABA (Asset Base Approach); ZOPP; SWAT; the Polling method and the AGATA Method for Land Tenure.

In Natural Resource Management, Mitra Samya learns and works together with the community in the Mareje Bonga area, Lombok Tengah Regency, to preserve the forest and to fight for the legality of community-based forest management.

The birth of the Asosiasi Mareje Bonga (AMB) has become an interesting learning experience in developing people's organizations. The learning has not ended, even though in 2012 the area was designated as a Community Plantation Forest (Hutan Tanaman Rakyat, HTR) area.

The various development and learning methodologies that Mitra Samya possesses will be more meaningful if they are known and replicated by stakeholders. The members of Perkumpulan Mitra Samya are aware of this, so one of the mandates given to the Management Board of Mitra Samya is to make Mitra Samya an open and sustainable learning center.

# SCOPE AND FIELDS OF ACTIVITY

## SCOPE

- ❖ Community and Civil Society Organization Empowerment,
- ❖ Media Development and Advocacy
- ❖ Development of Development Methodologies and Approaches,
- ❖ Participatory Training,
- ❖ Participatory Studies/Research,
- ❖ Development of Alternative Economic Enterprises.

## FIELDS

### WATER, SANITATION AND ENVIRONMENTAL HEALTH

- ❖ Development of Modules and Capacity Strengthening of Facilitators and Facility Management Institutions,
- ❖ Training on MPA, PHAST & CLTS Methods,
- ❖ DED (Detailed Engineering Design) for Drinking Water and Sanitation Facilities,
- ❖ Sanitation Promotion and Marketing,
- ❖ Monitoring, Evaluation and Studies (Best Practice) of Drinking Water and Sanitation Programs,
- ❖ Household Waste Management.

### SUSTAINABLE NATURAL RESOURCE MANAGEMENT

- ❖ Assessment and Development of Community-Based Natural Resource Management,
- ❖ Institutional Capacity Strengthening of Communities Managing Areas,
- ❖ Facilitation of the Preparation of Area Management Plans (Community Institutional Governance and Business Governance),
- ❖ Advocacy and Assistance in Applying for Management Legality,
- ❖ Conflict Resolution in Forest and Natural Resource Management,
- ❖ Integrated Climate Change Impact Assessment,
- ❖ Monitoring, Evaluation and Studies (Best Practice).

## **DEMOCRATIC GOVERNANCE**

- ❖ Development of Methods for Participatory Rural Development Planning, Implementation, Monitoring and Evaluation,
- ❖ Development of Modules and Capacity Strengthening of Government and Stakeholders in Development,
- ❖ Facilitation of participatory development processes/stages/cycles,
- ❖ Development of Village Information Systems,
- ❖ Monitoring, Evaluation and Studies (best practices) of democratization and participatory development programs,
- ❖ Polling,
- ❖ Development of participatory development media.

## **GENDER AND POVERTY MAINSTREAMING**

- ❖ Development of Participatory Study Methodologies for Poverty Alleviation and Dissemination of Development Program Information,
- ❖ Monitoring, Evaluation and Learning of Good Practices (best practices) of participatory poverty alleviation programs,
- ❖ Development of participatory development media for gender and poverty awareness.

## **INSTITUTIONAL AND PROGRAM CAPACITY STRENGTHENING**

- ❖ Institutional Development,
- ❖ Institutional and Program Assessment,
- ❖ Strategic Planning,
- ❖ *In House Training; Outdoor Training and Thematic Training,*
- ❖ Facilitation of Participatory Seminars and Workshops.

## MITRA SAMYA'S EXPERIENCE

### WATER, SANITATION AND ENVIRONMENTAL HEALTH

- ❖ Community-Based Total Sanitation (STBM) Program using the Community Led Total Sanitation (CLTS) Method in Muntigunung Hamlet, Tianyar Barat Village, Kubu District, Karangasem Regency, Bali; Yayasan Masa Depan Anak/Verein Zukunft für Kinder (VZK),
- ❖ Total Sanitation and Sanitation Marketing (TSSM) Phase I to III in the Western Region of East Java Province; Bill and Melinda Gates Foundation, World Bank, in association with PT Surya Abadi,
- ❖ Strengthening Community Voices and Choices on Basic Sanitation in Kuripan Selatan Village, Kuripan District, West Lombok Regency, NTB; Oxfam Australia,
- ❖ Sustainability Monitoring Training for the Pamsimas Program in Banten, West Java, Riau, and South Sumatra Provinces; Directorate General of PMD, Ministry of Home Affairs, CPMU Pamsimas, in association with PT INNAKON,
- ❖ Empowerment of Community Health Institutions through the Development of Clean Water and Sanitation Facilities in Dasan Geria Village, Lingsar District, West Lombok Regency, NTB Province; Deputy for Social and Cultural Institution Development, Ministry of Disadvantaged Regions Development and West Lombok Regency Health Office,
- ❖ Review of Unicef's WASH Program KPP in Bima Regency, NTB; Pokja AMPL Bima Regency, Unicef,
- ❖ Evaluation of Unicef's WASH Program in Alor Regency, NTT; Bappeda Alor Regency, Unicef,
- ❖ Post Construction Census of the WSLIC-2 Project in East Java and West Nusa Tenggara Provinces, Ministry of Health RI,
- ❖ Upgrade Training for Community Facilitator Team WSLIC-2 and Community Training in NTB, WSP-EAP The World Bank and PT Surya Abadi,

- ❖ Community Facilitator Team Training: Community Water Services and Health Programme in Bengkulu and Jambi Provinces; Asian Development Bank, in association with PT Lenggogeni and PT. Bina Swadaya Consultant,
- ❖ ProAir Case Study in West Sumba and South Central Timor Regencies, NTT Province; ProAir GTZ-AHT,
- ❖ Outcome Monitoring Study of the Sanimas Project in West Java and Bali Provinces; Pokja AMPL – WASPOLA,
- ❖ Outcome Monitoring Study of the WSLIC-2 Project in West Sumatra, South Sumatra, East Java, and NTB; Ministry of Health RI, WSP-EAP The World Bank, AusAID
- ❖ Training on Module Development for Information Situation Identification and Analysis (IDASI) for Clean Water Projects in NTT, ProAir, KfW-GTZ
- ❖ WSLIC-2 Training Package: Competency Assessment of TKKC, Sustainability Management of SABS and Environmental Health, MPA/PHAST Sanitarian, Community Empowerment Workshop, Demand Responsive Approach, In-situ Training in 23 Villages, Planning Workshop and Monev TKK in West Lombok Regency; DPMU WSLIC-2, West Lombok Regency Public Health Office,
- ❖ MPA/PHAST Orientation for WASPOLA Working Group, Surakarta; WASPOLA, WSP-EAP, The World Bank,
- ❖ Training for Community Facilitator Teams and District Consultants for the WSLIC-2 Project in NTB Province; Ministry of Health RI, WSP-EAP The World Bank, AusAID,
- ❖ Resource Personnel for Training Provider in Methodology for Participatory Assessment (MPA) and Participatory Hygiene and Sanitation Transformation (PHAST) for WSLIC 2 Project in South Sumatra and Bangka Belitung Provinces (CARE International), West Sumatra (Dian Desa), East Java (Bina Swadaya and Bina Nusa Sejahtera); Ministry of Health RI, WSP-EAP The World Bank, AusAID,
- ❖ Participatory Orientation for PMU and PMC WSLIC-2, East Java and NTB Provinces, Ministry of Health,
- ❖ MPA (Methodology for Participatory Assessment) Training for WASPOLA, TKK, and TKP WSLIC-2 Project; WSP-EAP The World Bank
- ❖ Participatory Assessment Updates for RWSS Project in Southeast Sulawesi, NTB, East Java, and Central Java; WSP-EAP The World Bank,
- ❖ Participatory Orientation for WSLIC-2 Project Consultants at Provincial and District Levels (NTB, South Sumatra, West Sumatra, East Java), Ministry of Health RI.
- ❖ Strengthening the Enabling Environment for the Elimination of Open Defecation and Safely Managed Sanitation in West Nusa Tenggara, Capacity building, UNICEF

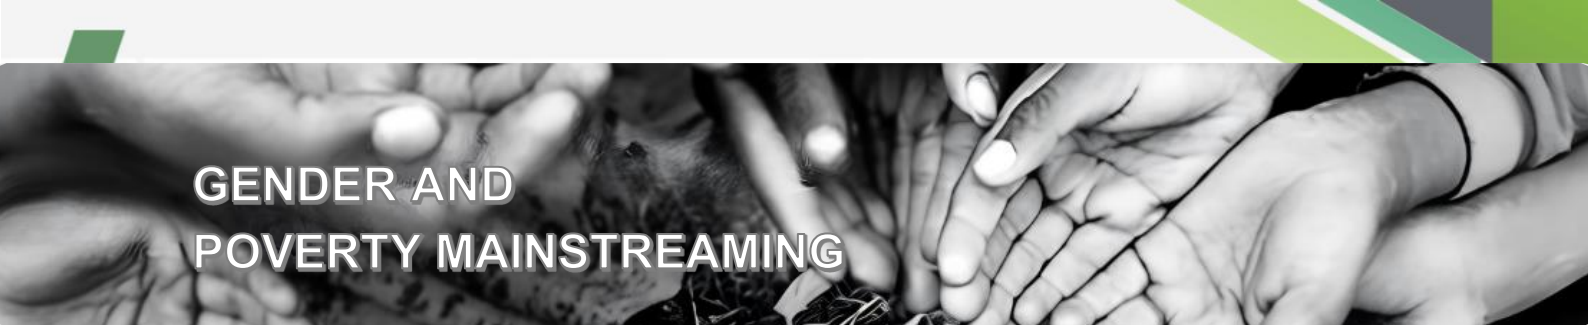

- ❖ Preparation of City/Regency Sanitation Strategy (SSK) Documents, Local Governments of West Sumbawa and East Lombok Regencies, UNICEF
- ❖ Preparation of the Roadmap Document for Domestic Wastewater Management Systems (SPALD) in East Lombok and West Sumbawa Regencies, UNICEF
- ❖ Preparation of the 5-Pillar STBM Roadmap towards sustainable safe sanitation in East Lombok Regency, UNICEF
- ❖ Preparation of EHRA Documents for Bima, East Lombok, and West Sumbawa Regencies,
- ❖ Assistance for programs improving access to clean water services, sanitation, and clean and healthy living behavior practices in East Lombok and North Lombok Regencies, Wahana Visi Indonesia (WVI)
- ❖ Waste management assessment in Munti Gunung, Tianyar Barat Village, Karangasem Regency, Bali, VZK
- ❖ Assistance for Waste Management in Marine Tourism areas in Selong Belanak and Tumpak Villages, Central Lombok Regency, Ministry of Tourism and Creative Economy
- ❖ Assistance for Clean Coastal Villages in Tumpak Village, Central Lombok and Jero Waru Village, East Lombok, Ministry of Maritime Affairs and Fisheries
- ❖ Assistance for the Plastic Credit Program in Tumpak Village, Central Lombok, OCEAN KITA

# DEMOCRATIC GOVERNANCE

- ❖ Social Mapping and Participatory Planning Training for PKP Village Facilitators in NTT; P2KP KMW NTB Province
- ❖ Community-Led Assessment and Planning Process Training and Supervision for Resource Teams in NTB, NTT, South Sulawesi, and Southeast Sulawesi Provinces; AusAID-ACCESS
- ❖ Evaluation of the Influence and Results of PRA Implementation - KPMNT Program in NTB and NTT Provinces; World Neighbors (WN)
- ❖ Directly Affected Villages (DAV's) Participatory Planning Process (PPP), Bintuni Bay Papua; British Petroleum-Tangguh Project
- ❖ Study on Conflict and Resolution Methods; Bima Regency, NTB Province; GTZ/PRODA-NTB
- ❖ Public Opinion Polling on the Budget in the East Lombok and Sumbawa Regency Governments, and Public Opinion Survey on Council Performance in West Lombok Regency and Sumbawa Regency; OTI/SWIFT Jakarta
- ❖ PRA (Participatory Rural Appraisal) Training and Supervision in the HPH PT. Dwimajaya Utama Forest Area, Central Kalimantan; South & Central Kalimantan Production Forest Project
- ❖ Participatory Evaluation Training for Analysis of SWAP System Project Results, East Sumba, NTT; Proda-NT/GTZ
- ❖ PRA (Participatory Rural Appraisal) Training for Youth Organizations and Local NGOs in the Context of Youth Empowerment in Conflict Areas in Bima Regency, NTB Province; Proda-NT/ GTZ
- ❖ Village Appreciative Mapping (PAD) in Muntigunung Hamlet, Tianyar Barat Village, Kubu District, Karangasem Regency - Bali; Yayasan Masa Depan Anak/Verein Zukunft für Kinder (VZK)
- ❖ Empowerment of Poor and Marginalized Groups in 22 Villages and Capacity Building of Village and District Governments in Central Lombok in Participatory Planning and Budgeting for the Fulfillment of Basic Rights; Central Lombok Regional Government, NGO Consortium, The Ford Foundation

- ❖ Study on Mapping Village Independence in 20 Regencies in the ACCESS working areas in South Sulawesi, Southeast Sulawesi, NTB, and NTT Provinces, AusAID – ACCESS Program
- ❖ CSO Capacity Support through Transparent, Accountable, Participatory, and Inclusive Development Approaches to Encourage Dynamic Stakeholder Engagement in Democratic Local Governance, ACCESS-AusAID
- ❖ Evaluation and Assessment of 6 Village Planning in the PT Newmont Nusa Tenggara (NNT) Community Development Program Area; Comdev PT NNT
- ❖ Civic Education Training for CLAPP facilitators and Civil Society Networks in NTT, NTB, South Sulawesi, and Southeast Sulawesi; ACCESS AusAID
- ❖ Development of Community Led Assessment and Planning Process, Gender and Poverty Inclusive Methods in NTB, NTT, South Sulawesi, Southeast Sulawesi; AusAID-ACCESS
- ❖ Preparation of Village Profiles, Village governments of Lembah Sempaga, Kuranji Dalang, and Tumpak Village

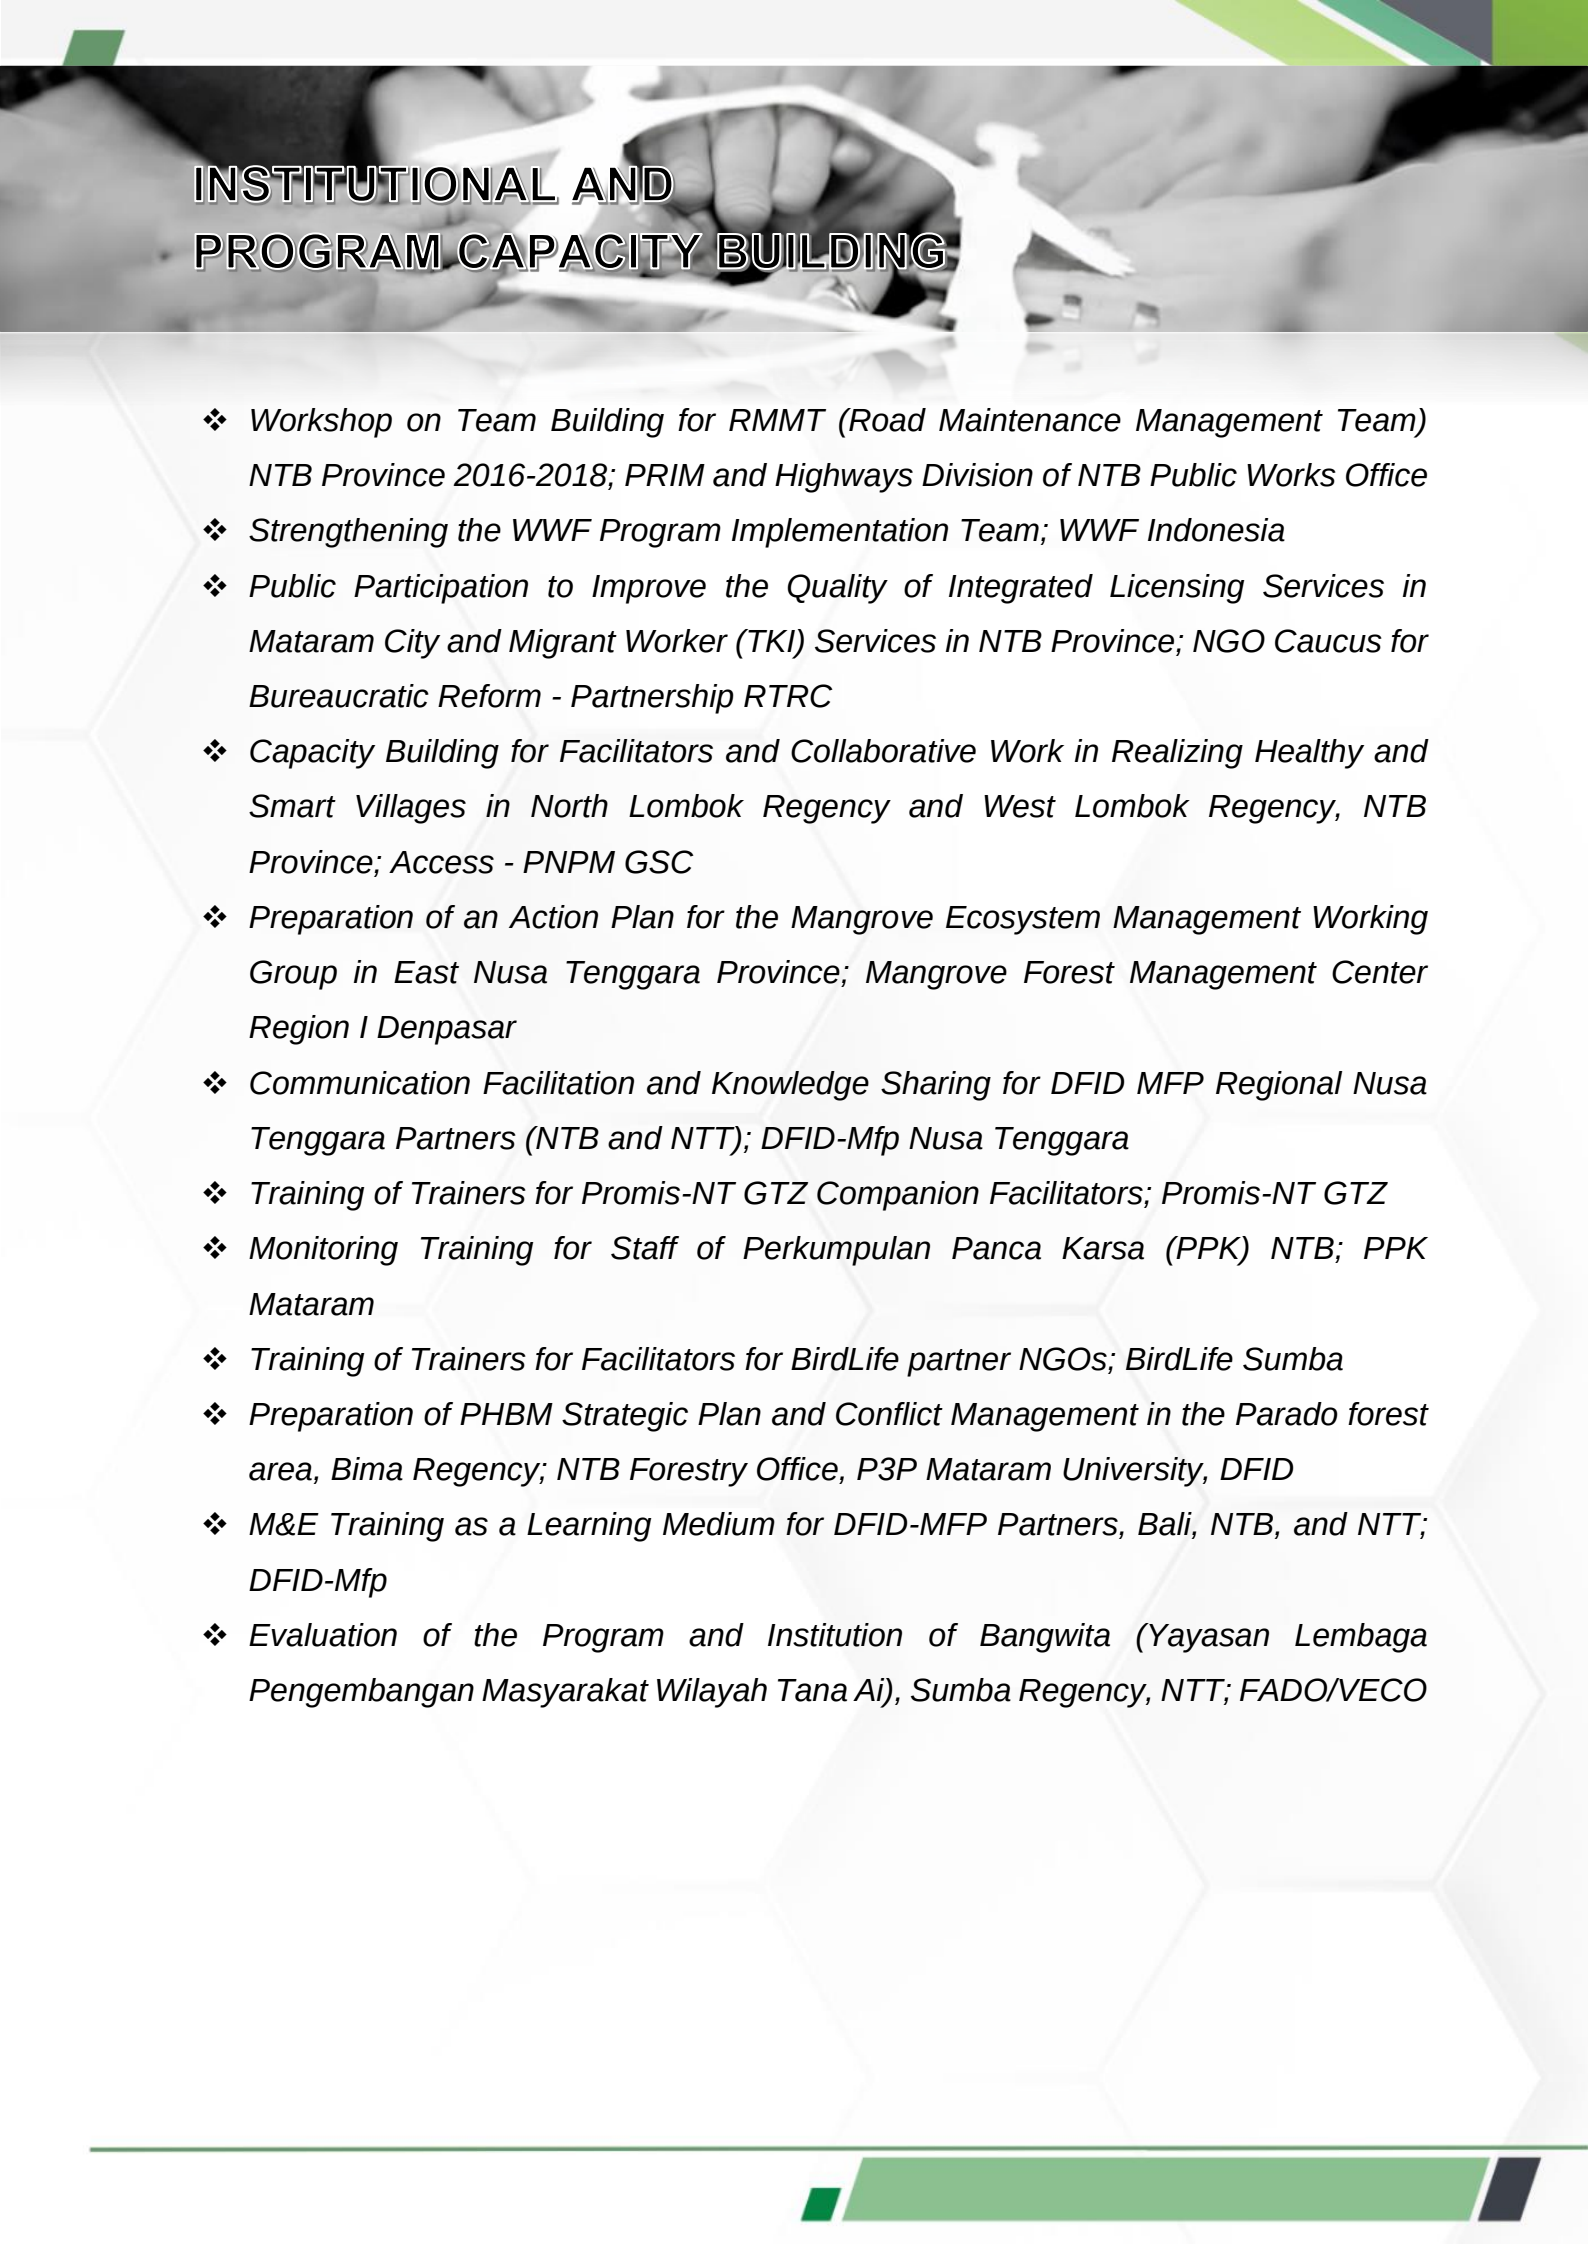

## GENDER AND POVERTY MAINSTREAMING

- ❖ Socialization and Facilitation of Information Provision Interventions for Prospective Indonesian Migrant Workers in 8 Regencies (Cianjur, Karawang, Indramayu, Cirebon, Brebes, Cilacap, Kendal, and Malang), J-PAL SEA
- ❖ Community Empowerment-Based Family Welfare Improvement Program – Development of Sustainable Livelihoods in Wanasaba District and Suralaga District, East Lombok Regency, NTB Province; Bappenas, Ministry of Villages, SMERU
- ❖ National Health Insurance (JKN) BPJS in East Java Province; J-PAL SEA, BPJS, Bappenas
- ❖ Pilot Socialization and Community Involvement in Raskin Distribution in Central Java, Lampung, and South Sumatra Provinces; J-PAL SEA, TNP2K, AusAID
- ❖ Determination of Household Welfare Rankings for the PKH Program in Central Java, South Sumatra, and Lampung Provinces; J-PAL SEA, Ministry of Social Affairs, BPS, World Bank
- ❖ Effectively Targeting Anti Poverty Programs 2 in South Sulawesi and Lebak Banten; J-PAL SEA, World Bank, Ministry of Social Affairs, BPS
- ❖ Effectively Targeting Anti Poverty Programs in North Sumatra, South Sulawesi, and Central Java Provinces; J-PAL SEA, World Bank
- ❖ Strengthening the Voices and Choices of the Poor and Women in Transparent, Accountable, Participatory, and Inclusive Planning and Budgeting; ACCESS-AusAID

- ❖ *Communication Facilitation and Knowledge Sharing for DFID MFP Regional Nusa Tenggara Partners (NTB and NTT); DFID-Mfp Nusa Tenggara*
- ❖ *Training of Trainers for Promis-NT GTZ Companion Facilitators; Promis-NT GTZ*
- ❖ *Monitoring Training for Staff of Perkumpulan Panca Karsa (PPK) NTB; PPK Mataram*
- ❖ *Training of Trainers for Facilitators for BirdLife partner NGOs; BirdLife Sumba*
- ❖ *Preparation of PHBM Strategic Plan and Conflict Management in the Parado forest area, Bima Regency; NTB Forestry Office, P3P Mataram University, DFID*
- ❖ *M&E Training as a Learning Medium for DFID-MFP Partners, Bali, NTB, and NTT; DFID-Mfp*
- ❖ *Evaluation of the Program and Institution of Bangwita (Yayasan Lembaga Pengembangan Masyarakat Wilayah Tana Ai), Sumba Regency, NTT; FADO/VECO*

## PROGRAMS 2020 - 2026

- ❖ Socialization, Cooperation Supporting UNICEF - MITRA SAMYA - POKJA AMPL NTB Province for Acceleration of BASNO (Open Defecation Free) and Safe Sanitation Management. Mataram, January 29, 2020.
- ❖ Workshop on Preparation of the BASNO ROADMAP Towards Safe Sanitation Management in NTB Province. Mataram, February 17-18, 2020.
- ❖ AHL (Advocacy Horizontal & Learning) & Managing Sanitation Safely. West Sumbawa Regency, March 3-4, 2020.
- ❖ Sanitation Advocacy Training at the Regency/City and NTB Provincial Levels. Mataram, September 2 - 4, 2020.
- ❖ Promotional Media Training, High School/Vocational/Islamic High School Students Care about Sanitation for the Promotion and Campaign of Safe Domestic Wastewater Management. September 2020.
- ❖ Public Consultation, Technical Guidelines for the Utilization of ZIS Funds and Socialization of the WASH index Mataram BAZNAS, September 30, 2020.
- ❖ Promotion of Knowledge and Community Behavior Change Towards Safe Domestic Wastewater Management through Promotional Videos in East Lombok and West Sumbawa Regencies. West Sumbawa, November 2020.
- ❖ POKJA AMPL Coordination Meeting, Finalization of the BASNO ROADMAP Document Towards Safe Sanitation. Mataram, December 1, 2020.
- ❖ Sanitation Jamboree Activity (Youth Sanitation Influencer). Sesaot, December 20-21, 2020.
- ❖ WASH, East Lombok & West Sumbawa, UNICEF, 2020.
- ❖ WASH, East Lombok & West Sumbawa, UNICEF, 2021.
- ❖ PAMSIMAS - Telephone Survey for the PAMSIMAS Sustainability Program, NMC PAMSIMAS, 2021.
- ❖ FPRB (Disaster Risk Reduction Forum) in the Preparation of the Disaster Management Action Plan in NTB, BPBD NTB Province, 2021.
- ❖ FPRB, encouraging the active role of parties (PENTAHELIX) in supporting disaster risk reduction in NTB. 2021.
- ❖ Assistance for Plastic Waste Management in Marine Tourism in Selong Belanak Village, KEMENPAREKRAF, August – December 2021.

- ❖ Continuing the Mentoring Program for Plastic Waste Management in Marine Tourism in Selong Belanak Village, KEMENPAREKRAF, July-October 2022.
- ❖ Re-strengthening Inclusive Resilience as a Strategy for Restoring Community Livelihoods post-Covid-19 Pandemic and Climate Change in Central Lombok Regency (Selong Belanak & Tumpak Villages) and North Lombok Regency (Pemenang Barat & Malaka Villages), Mitra Samya Konsorsium Konsepsi, Siap Siaga – AUS Government - Indonesia for Disaster Risk Management. March - November 2022.
- ❖ Strengthening the Enabling Environment for the Elimination of Community-Based Total Sanitation (STBM) and Safely Managed Sanitation in West Nusa Tenggara, UNICEF 2023 to 2025.
- ❖ Preparation of City/Regency Sanitation Strategy (SSK) Documents, Local Governments of West Sumbawa and East Lombok Regencies, UNICEF July-December 2021.
- ❖ Preparation of the Roadmap Document for Domestic Wastewater Management Systems (SPALD) in East Lombok and West Sumbawa Regencies, UNICEF July – December 2021.
- ❖ Assistance for Waste Management in Marine Tourism areas in Selong Belanak and Tumpak Villages, Central Lombok Regency, Kemenparkraf, 2021 – 2022.
- ❖ Preparation of the 5-Pillar STBM Roadmap towards sustainable safe sanitation in East Lombok Regency, UNICEF July – September 2023.
- ❖ Assistance for Clean Coastal Villages in Tumpak Village, Central Lombok and Jero Waru Village, East Lombok, Ministry of Maritime Affairs and Fisheries 2023 – 2024.
- ❖ Preparation of EHRA Documents for Bima, East Lombok, and West Sumbawa Regencies, October – December 2025.
- ❖ Assistance for programs improving access to clean water services, sanitation, and clean and healthy living behavior practices in East Lombok and North Lombok Regencies, Wahana Visi Indonesia (WVI), 2025-2026.
- ❖ Assistance for the Plastic Credit Program in Tumpak Village, Central Lombok, OCEAN KITA, 2025.
- ❖ Building Resilience Through Adaptive Climate Engagement, PRB Forum – GIZ, 2025-2026.
- ❖ EHRA Study and Preparation of SSK Documents for West Lombok Regency and Sumbawa Regency, February – June 2026.

- ❖ Updating the City/Regency Sanitation Strategy documents for West Lombok, East Lombok, and Sumbawa July – November 2026.
- ❖ Assistance for KPSPAM Tembung Putek, East Lombok Regency August – September 2026.
- ❖ Preparation of the Tolerance Index for East Lombok Regency September – November 2026.

## ORGANIZATION AND RESOURCES

Currently, the members of Perkumpulan Mitra Samya (Lembaga Studi Partisipasi, Ekonomi dan Demokrasi) number 19 people, residing in various regions of Indonesia and coming from diverse educational and experience backgrounds, ranging from researchers and academics to bureaucrats and community empowerment practitioners.

Every 3 years, all members of the association gather to hold the General Members' Meeting (Rapat Umum Anggota, RUANG), the highest decision-making forum, to evaluate the mandate given, elect the Director, the Supervisory Board and the Expert Panel Coordinator for the next period, and formulate various policies to be mandated to the Management Board as the operational executor of Mitra Samya.

The Management Board is led by a Director, supported by an Office Manager and several program divisions. The Office Manager handles daily operational management with the support of Administration and Finance staff and the General Affairs section, while program implementation is managed by the Program Division. The number of divisions formed is adjusted to the needs of carrying out the mandate received.

The performance of the Management Board in carrying out the RUANG mandate, in the Program, Finance and Institutional fields, is supervised by the Supervisory Board

through periodic internal audits. The Supervisory Board consists of at least 3 association members elected at the RUANG.

Another important component of Mitra Samya's organizational structure is the Expert Panel, consisting of members of Perkumpulan Mitra Samya who serve neither on the Management Board nor on the Supervisory Board. Members of the Expert Panel generally have particular experience and areas of expertise, so their main role is to provide consultation and assistance on program planning and implementation to the Management Board in line with their areas of expertise. If needed, Expert Panel members may also serve as part-time personnel in the implementation of Mitra Samya's programs and activities.

## **MANAGEMENT 2025 – 2028**

### **DIRECTOR**

Husnuzzoni

### **SECRETARIAT & MEAL**

**Secretary** Titik Soeprijati

#### **MEAL**
